Hazardous and dangerous goods transportation

Dangerous goods transportation is demanding and there are several measures to take in order to secure a safe delivery of your shipment. We offer you a reliable service in the field of **dangerous goods transportation** and our specialists in the GLS depots advise you on the secure dispatch of your hazardous goods. We deliver, exclusively within Belgium, certain types of hazardous goods according to ADR convention and GGVSE (please see categories named in the box on the left and also see image for the categories of hazardous goods).
